

# QHSE POLICY

As a continuation of all actions undertaken by OFMC since its creation and to meet the expectations of its customers in terms of the quality of full catering services and in a context competitive where its partners (customers, authorities, staff ...) are increasingly defining their needs and requirements, the senior Management has decided to apply a policy based on:

- Customers and interested parties Satisfaction.
- The protection of the environment and the prevention of pollution.
- The development of a partnership relationship with each client for short and long term.
- The protection of the health and safety of its employees as well as the prevention of occupational risks.
- Increased market share and profitability.
- Continuous improvement of the Integrated Management System.

All of these commitments will be translated into objectives and targets and will be monitored as part of the Integrated Management System planning.

This policy must be made available to interested parties, understood by all employees; their involvement in the achievement of objectives is paramount. That each of us feels responsible.

The QHSE manager is responsible for coordinating the implementation of this policy and regularly informs me on the progress and follows up of the integrated management system.

Therefore we are committed to put in evidence all means to ensure the sustainability of our approach and measure performance

Hassi Messaoud on December 08th, 2017
